This grant agreement is awarded to the Territory of US Virgin Islands Department of Planning and Natural Resources (VIDPNR) to implement this agreement will provide funding for the Town of North Hempstead Community Development Agency to inventory, characterize, assess, and assess the purpose of this agreement is to provide assistance to the New York State Department of Environmental Conservation, Division of Water Conservation. This agreement will provide funding for the City of Rochester, New York to conduct a range of activities associated with the planning, assessment, and assessment. This agreement will provide funding for the City of Troy to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding to the City of Lackawanna to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding for the Municipality of Toa Alta to inventory, characterize, assess, and conduct cleanup planning, as applicable. Purpose: The purpose of this American Rescue Plan and CERCLA 104 (k)(7) funded cooperative agreement is to provide funding to New Jersey. This agreement will provide funding for the City of Salem, New Jersey to conduct a range of activities associated with the planning, assessment, and assessment. This agreement will provide funding for Greater Mohawk Valley Land Bank Corporation to conduct a range of activities associated with the planning, assessment, and assessment. The purpose of this agreement is to provide assistance to the Interstate Environmental Commission to implement its project to support the Long Island Sound Commission. This agreement provides assistance to the Connecticut Fund for the Environment to implement its project to support the Long Island Sound Commission. This purpose of this agreement is to provide assistance to the Research Foundation of SUNY to implement its project to support the Long Island Sound Commission. The purpose of this agreement is to provide assistance to the Cornell University Office of Sponsored Programs to implement its project to support the Long Island Sound Commission. The purpose of this agreement is to provide assistance to the Cornell University Office of Sponsored Programs to implement its project to support the Long Island Sound Commission. This grant agreement is awarded to the State of New York Department of Health to implement a drinking water program assistance to underserved communities. This agreement provides funding to the State of New York Department of Health (NYSDOH) to assist an underserved community to meet and address environmental health concerns. This agreement provides funding to the State of New York Department of Health (NYSDOH) to assist an underserved community to meet and address environmental health concerns. The purpose of this agreement is to provide funding for Trenton, NJ to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement provides funding for the operation of the New Jersey Department of Health's (NJDOH's) continuing environmental protection programs. This agreement will provide funding to Hainesport Township to clean up the brownfield Former Paul's Tank Cleaning Service Site in Hainesport, NJ. This agreement may fund the participation of the Puerto Rico Department of Natural and Environmental Resources in activities including but not limited to the primary purpose of this grant is to provide financial assistance to the Newark Board of Education to implement its program to provide drinking water. The project in the Seneca Nation of Indians proposes to install a small community sewer and sand filter treatment system for 24 homes as the primary purpose of this grant is to provide financial assistance to the Newark Board of Education to implement its program to provide drinking water. This Agreement will fund the Shinnecock Indian Nation's continuing environmental programs. The activities to be performed include: 1. protect and assess the Seneca Nation of Indians' environmental resources. The purpose of this grant agreement funded under CWA 104(b)(3) statutory authority is to provide Puerto Rico Department of Natural and Environmental Resources with technical assistance. The purpose of this grant agreement funded under CWA 401(b)(3) statutory authority is to award funds to the Research Foundation at the State University of New York. This Cooperative Agreement is provided to the Research Foundation of SUNY Stony Brook to support the Peconic Estuary Partnerships work. Section 320 of the Clean Water Act authorizes the Administrator of the EPA to convene management conferences to develop comprehensive management plans. This agreement provides funding to the Interstate Environmental Commission (IEC) to carry out its program to maintain, protect, and improve the quality of the environment. This agreement provides funding to the Interstate Environmental Commission (IEC) to carry out its program to maintain, protect, and improve the quality of the environment. The goal of this program is to provide radon risk reduction through activities that will result in increased radon testing, mitigation and radon remediation. This project will provide technical assistance (e.g., information, training, tools) to businesses to help them develop and adopt source reduction measures. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes. The purpose of this agreement is to provide assistance to the New York State Department of Environmental Conservation Division of Marine Conservation. This agreement provides funding for the operation of the New York State Department of Environmental Conservation's continuing environmental protection programs. This agreement will provide funding for the New Jersey Economic Development Authority (NJEDA) to capitalize a revolving loan fund from which the State of New Jersey will provide funding for the City of Jersey City to assist in the cleanup of the brownfield site known as Mill Creek which consists of a brownfield site. This agreement will provide funding for Broome County Industrial Development Agency to inventory, characterize, assess, and conduct cleanup planning and community involvement. This grant agreement will fund a project to replace existing water mains that are deteriorating, as evidenced by numerous breaks recorded by the Seneca Nation of Indians. This grant agreement will assist the Seneca Nation of Indians to construct an extension of the sewer system along Cayuga Road. The project will provide funding to the Sullivan County Land Bank Corp. to clean up a brownfield site in Monticello, New York. Sullivan County will provide funding to the City of Camden to clean up the Borden Chemical site located at 1625 Federal Street in Camden, New Jersey. This agreement will provide funding to the City of Rochester to clean up a brownfield site(s) located at 24 and 32 York Street, in Rochester, New York. This agreement will provide funding for the City of Glens Falls to inventory, characterize, assess, and conduct cleanup planning and community involvement. This agreement will provide funding for Cooper's Ferry Partnership, CFP, to inventory, characterize, assess, and conduct cleanup planning and community involvement. This grant agreement is awarded to the New Jersey Department of Environmental Protection to implement a program to provide drinking water. This grant agreement is awarded to the New Jersey Department of Environmental Protection (NJDEP) to implement a drinking water program. This grant agreement is awarded to the New Jersey Department of Environmental Protection (NJDEP) to implement a drinking water program. This grant agreement is awarded to the New Jersey Department of Environmental Protection (NJDEP) to implement a drinking water program. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of New Jersey to implement resources. This Agreement provides funding for the Seneca Nation of Indian's continuing environmental programs while giving it greater flexibility to address environmental health concerns. This agreement contains activities that complement existing environmental program grants. Specifically the recipient will use this multipurpose grant to address environmental health concerns. The Multipurpose Grant (MPG) funding is being provided as in-kind assistance which will be directed to a contract to support Puerto Rico Department of Natural and Environmental Resources. This agreement provides funding under the Further Additional Supplemental Appropriation for Disaster Relief Requirements Act, 2018, of the Department of the Interior. This agreement will provide assistance to the New Jersey Department of Environmental Protection (NJDEP) in its efforts to reduce diesel emissions. This agreement will provide assistance to the New York State Department of Environmental Conservation (NYSDEC) in its efforts to reduce diesel emissions. This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child care facilities. This agreement is to an eligible state agency to implement a program of voluntary testing for lead in drinking water at local schools and child care facilities. This agreement will provide funding for the Village of Gowanda to inventory, characterize, assess, and conduct cleanup planning and community involvement. This grant provides financial assistance to the New Jersey Department of Environmental Protection, NJDEP, to implement its project to complete the cleanup of the Seneca Nation of Indians' environmental resources.

NJ PM2.5 Monitoring Supplemental PM96290202-4
NJDEP FY24 PM2.5, Ambient Air Quality, Grant
Northampton RLF (Section 104k)
BROWNFIELD REVOLVING LOAN FUND (HAZARDOUS SUBSTANCES/PETROLEUM)
VDH SIRG FY25
Assistance Agreement of the FY2023-2025 DC's Hazardous Waste Management Program Grant activities.
FY 22-25 Pesticides Performance Partnership Grant

The purpose of this agreement is for a capitalization grant which provides funds for the PRDNER Clean Water State Revolving Fund (CWSR). This agreement provides funding to the Township of Teaneck to implement its project to install an underground stormwater detention in Saga. The agreement provides funding to Leonardo Academy. Specifically, the recipient will replace older diesel Tier 3 Straddle Carriers with newer. This project provides funding to NY Sun Works to implement its project, which will design, demonstrate, and disseminate environmental education. This project provides funding to Rowan University to implement its project, which will design, demonstrate, and disseminate environmental education. The purpose of this agreement is to provide assistance to the Save the Sound to implement its project to support the Long Island Sound Corridor. This project provides funding to Trail Blazers to implement its project, which will design, demonstrate, and disseminate environmental education. The purpose of this agreement is to provide assistance to the New York State Department of Environmental Conservation Division of Marine Resources. The agreement provides funding to Leonardo Academy. Specifically, the recipient will replace older, diesel yard trucks with electric yard trucks. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding to the City of Elizabeth to implement its project for the replacement of known lead service lines as directed in the SDWA. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. The agreement provides funding to the Connecticut Maritime Foundation to replace older diesel engines on marine vessels with new, cleaner engines. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This project will provide technical assistance (e.g., information, training, tools) to businesses to help them develop and adopt source reduction strategies. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding to the Puerto Rico Department of Health (PRDOH). Section 1452 of the Safe Drinking Water Act (SDWA) requires the replacement of lead service lines. This agreement provides funding under the Inflation Reduction Act (IRA) to Bronx River Alliance, Inc. Specifically, the project will establish a lead service line replacement program. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding under the Inflation Reduction Act (IRA) to GRID Alternatives. Specifically, on the east side of Puerto Rico, the project will install solar panels. This agreement provides funding to the Village of New Square to implement its project for Storm Drainage and Flood Mitigation Improvement. This agreement provides funding under the Inflation Reduction Act (IRA) to PUSH Buffalo. Specifically, the project includes the following initiatives: 1) Stormwater management, 2) Flood mitigation, 3) Drainage improvement. This agreement will provide assistance to the New York State Department of Environmental Conservation (NYSDEC) in its efforts to maintain and improve the Hudson River. This agreement provides funding to the Town of Owasco to implement its project to provide Inflow and Infiltration reduction Improvements to its sewer system. This agreement provides funding under the Inflation Reduction Act (IRA) to El Puente de Williamsburg, Inc. Specifically, the project will facilitate the development of a new waterfront area. This Consolidated Grant provides funding under Infrastructure Investment and Jobs Act (IIJA) Appropriation to support the Virgin Islands Department of Environmental Protection. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to SeaStreak, LLC. Specifically, the recipient will improve its fleet of ferries. This agreement provides funding under the Inflation Reduction Act (IRA) to West Harlem Environmental Action, Inc. Specifically, the project will develop a new waterfront area. The purpose of this award is to provide funding under the Inflation Reduction Act to the Port Authority of New York and New Jersey. Specifically, the project will develop a new waterfront area. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Port Authority of New York and New Jersey. Specifically, the project will develop a new waterfront area. Planning, development, and establishment of an environmental sustainability program to enable the Oneida Indian Nation to appropriately implement its land use plan. The purpose of this award is to provide funding under the Inflation Reduction Act to the Puerto Rico Ports Authority. Specifically, the recipient will improve its fleet of ferries. This agreement provides funding under the Inflation Reduction Act (IRA) to El Departamento de la Comida (El Depa). Specifically, this project will develop a new waterfront area. This agreement provides funding under the Inflation Reduction Act (IRA) to Ironbound Community Corporation (ICC). Specifically, by leveraging federal funds, the project will develop a new waterfront area. This agreement provides funding under the Inflation Reduction Act (IRA) to Rockaway Waterfront Alliance (RWA), dba RISE. Specifically, by leveraging federal funds, the project will develop a new waterfront area. The agreement provides funding under the Inflation Reduction Act (IRA) to Village of New Square to replace in-use, non-zero-emission heavy trucks with electric trucks. The agreement provides funding under the Inflation Reduction Act (IRA) to NYC School Bus Umbrella Services, Inc. (NYCSBUS) to replace its fleet of school buses with electric buses. The purpose of this award to the New York State Department of Environmental Conservation Division of Water is to implement its project to establish a new waterfront area. This agreement provides funding under the Inflation Reduction Act (IRA) to Asociaci3n de Residentes de La Margarita, Inc. (ARLM). Specifically, the project will develop a new waterfront area. This agreement provides funding under the Inflation Reduction Act (IRA) to Island Green Building Association, doing business as Island Green Building. This agreement provides funding under the Inflation Reduction Act (IRA) to Trinity Alliance of the Capital Region. Specifically the project will develop a new waterfront area. This agreement provides funding under the Inflation Reduction Act (IRA) to The New School, Tishman Environment and Design Center. Specifically, the project will develop a new waterfront area. This agreement will provide assistance to the Puerto Rico Department of Planning and Natural Resources (PRDNER) in its efforts to maintain and improve the Puerto Rico coastline. This agreement provides assistance to the State of New York's Leaking Underground Storage Tanks (LUST) program. Specifically, this agreement will provide funding to the LUST program. The agreement provides funding under the Inflation Reduction Act (IRA) to Haverstraw-Stony Point Central School District (North Rockland Central School District). The agreement provides funding under the Inflation Reduction Act (IRA) to New York City Department of Citywide Administrative Services (DCAS). This agreement will provide funding for the Camden Redevelopment Agency to capitalize a revolving loan fund from which to make loans and provide subgrants to carry out cleanup activities at brownfield sites located in the Camden area. This agreement will provide assistance to the New Jersey Department of Environmental Protection (NJDEP) in its efforts to maintain a PM2.5 standard. This agreement provides continued assistance to the New Jersey Department of Environmental Protection to operate and maintain its air quality monitoring system. This agreement provides supplemental funding to the County of Northampton to capitalize a RLF from which to make loans and sub-grants to carry out cleanup activities at brownfield sites located in the County of Northampton. Funds will be used to capitalize a revolving loan fund and provide subgrants to carry out cleanup activities at brownfield sites located in the County of Northampton. The purpose of this Toxic Substances Control Act (TSCA) 306-funded grant is to provide radon risk reduction that will result in increased radon testing and mitigation. This amendment will continue funding the development and implementation of an authorized hazardous waste management program in the District of Columbia. The purpose of the Pesticides Performance Partnership Grant is to partially fund the operation of the District of Columbia Department of Energy and the Environment.

City of Staunton Brownfields Assessment Grant Program

The Chesapeake Bay Trust (CBT) supports Chesapeake Bay Program Goal Implementation Teams (GITs), designated work groups, and action teams to meet their responsibilities, targets, outcomes and goals under the 2014 Chesapeake Bay Watershed Agreement.

This agreement funds the recipient's program to perform site characterization activities such as preliminary assessments and site inspections. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. WVDEP CBIG III This action increases the total approved assistance amount by \$467,312, along with a corresponding increase to recipient cost share.

The purpose of this award is to monitor and assess water quality, habitat conditions, and nutrient and sediment pollution in the Chesapeake Bay watershed, as well as support data analysis and interpretation of long-term trends.

This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This action increases the total approved assistance amount by \$820,050 in federal funds, with a corresponding increase in recipient match; a corresponding increase in recipient match. This action supports NYSDEC's efforts in reducing nutrient and sediment loads in the Susquehanna and Chemung River basins by focusing on reducing non-point source pollution. This project will provide funding to the recipient to inventory and assess brownfield properties for future use and redevelopment. The Philadelphia Department of Public Works (PWD) will provide assistance to the National Biodiesel Foundation (Clean Fuels Foundation) in its efforts to reduce diesel emissions. This agreement will provide assistance to the Mid Atlantic Regional Air Management Association (MARAMA) its efforts to reduce diesel emissions. This agreement will provide funding for the City of Bristol to inventory, characterize, assess, and conduct cleanup planning and community involvement. The grant will support the National Air Toxics Trends Station (NATTS) Air Monitoring Program, specifically the Allegheny County site located in the City of Pittsburgh. This grant will provide funding to the District of Columbia, Department of Energy and Environment (DC DOEE) for the construction of category 1 brownfield sites. This agreement will provide funding to the New River Gorge Regional Development Authority (NRGRD) to clean up a brownfield site named the former West Virginia State Prison. The Mid-Atlantic Regional Air Management Association, Inc., (MARAMA), mission is to strengthen the skills and capabilities of member agencies. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. The Pennsylvania Department of Conservation and Natural Resources (PADCNR) is funding staff positions over three years, travel expenses, and other project costs. The project will assist the Port Authority of Allegheny County to move from diesel to electric transit buses by funding the differential in cost between the two modes. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. The purpose of this award is to support Virginia's implementation of management mechanisms established under the Chesapeake Bay Watershed Agreement. The recipient is an eligible state that implements programs to provide drinking water assistance to underserved, small and disadvantaged communities. This FY 2021 MPG will be used to conduct pre-and post-testing in the area around landfills, municipal waste incinerators (MWIs) and one commercial facility. Funding for administration of a grant program to accelerate implementation of agricultural Best Management Practices (BMP) in the most effective watersheds. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This cooperative agreement supports the operation of the Chesapeake Bay Program's Citizen Advisory Committee and Local Government Action Teams. This action increases the total approved assistance amount by \$110,000, along with a corresponding increase to recipient cost share; awards totaling \$1,100,000. This action increases the total approved assistance amount by \$11,761, with a corresponding increase to recipient cost-share; awards totaling \$1,100,000. This agreement funds the recipient's program to review and assist with obtaining project easements, oversight of remedial construction and monitoring. This action extends the budget and project periods from 09/30/2024 to 09/30/2025. The extension is necessary due to COVID pandemic support. This grant agreement provides funding to the Pennsylvania Department of Environmental Protection (PADEP) to implement reimbursement for monitoring and assessment. The purpose of the project is to reduce diesel emissions in the State of Delaware. The FY2022 Department of Natural Resources and Environmental Control (DNREC) will assist the District of Columbia's Department of Energy and Environment/Air Quality Division (DOEE/AQD) in its efforts to reduce diesel emissions. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. Working with partners, the Alliance for the Chesapeake Bay (Alliance) will support capacity expansion and integration of citizen-based and non-governmental organizations. This grant will provide funding to the District of Columbia, Department of Energy and Environment (DC DOEE) for the construction of five category 1 brownfield sites. This amendment provides incremental federal funds of \$15,500 to the City of Philadelphia Health Dept. Air Mgmt. Services (PHL AMS) to support the implementation of the Clean Air Act. The purpose of this award is to provide funding for the Maryland Department of Planning (MDP) to inventory, characterize, assess, and conduct cleanup planning. The purpose of this agreement is to provide funding to the Redevelopment Authority of the City of McKeesport to clean up a brownfield site at the former West Virginia State Prison. The purpose of this agreement is to provide funding to the Northampton County to inventory, characterize, assess, and conduct cleanup planning. The grant funds will support the Virginia Department of Environmental Quality (DEQ) Office of Air Quality Monitoring (OAQM) for a Community Air Quality Monitoring Program. The purpose of this award is to provide funding for the Region 4 Planning and Development Council to inventory, characterize, assess, and conduct cleanup planning. This agreement will provide funding for the Boone County Community Development Corporation to cleanup the Former Lyon Oil Site, located in the City of Boone. This purpose of this agreement is to provide funding for the City of Staunton to inventory, characterize, assess, and conduct cleanup planning.

Enhanced Monitoring to Improve the Assessment of Sediment and Nutrient Load Reductions

The purpose of this grant is to aid the Maryland Department of Natural Resources (MD DNR) with implementing the management mechanism. This agreement will provide funding for the City of Wheeling to clean up the Robrecht Riverfront Property site, located in Wheeling, West Virginia. The purpose of this award is to provide funding for Pittsylvania County to inventory, characterize, assess, and conduct cleanup planning and implementation. This agreement will provide funding to JASTECH Development Services, Inc (JASTECH) to clean up a brownfield site, Overbrook Urban Farm. This action increases the total approved assistance amount and recipient cost-share by \$3,279,262 for continued support of Virginia's implementation. The purpose of this agreement is to provide funds to the recipient for it to provide subawards to the District's Department of Public Works for implementation. The purpose of this American Rescue Plan Act funded cooperative agreement is to provide funding for West Virginia University Research Center. This amendment provides incremental federal funds of \$201,572 and updates the terms and conditions of the award. Federal funds of \$120,600. The purpose of this project is to build Delaware's program capacity to restore and recover tidal aquatic resources through research, partnerships, and outreach. The purpose of this project is to improve shoreline stabilization decisions in Maryland to protect MD's 3,000 miles of coastlines that are vulnerable to sea level rise. The agreement assists the Virginia Department of Health to develop and implement improvement investments through projects that will reduce health disparities. The agreement assists the District of Columbia Department of Energy and Environment to develop and implement improvement investments.

The purpose of this grant is to communicate the needs, priorities, and successes of the Chesapeake Bay Program (CBP) partnership in support of implementation of the Chesapeake Bay Watershed Agreement.

The purpose of this agreement is to provide funds to the recipient for it to provide subawards to local municipalities for costs associated with implementation. The purpose of this cooperative agreement is to provide the Chesapeake Bay Program (CBP) partners with support to design, develop, update, and implement the Chesapeake Bay Program (CBP) partnership with technical and programmatic support related to implementation. The purpose of this award is to provide the Chesapeake Bay Program (CBP) partnership with technical and programmatic support related to implementation. The purpose of this cooperative agreement is to provide assistance to Allegheny County, PA in its efforts to reduce emissions throughout the county. The purpose of this cooperative agreement is to fully operationalize an unstructured-grid tidal water model, which will be used for the assessment and modeling of tidal water levels. PROJECT DESCRIPTION: Provide support to EPA thru oversight of 1) early action required to protect human health, 2) remedial design activities, and 3) monitoring networks. The purpose of this grant is to maintain fine particulate matter (PM2.5) monitoring networks in the state of Delaware. The primary objective of this project is to collect and analyze data from the monitoring networks. The purpose of this grant is to maintain fine particulate matter (PM2.5) monitoring networks. The primary objective of this project is to collect and analyze data from the monitoring networks. The cooperative agreement awards \$152,000.00 of federal funds. This project will utilize federal grant funds to establish a commercial food waste management system. The purpose of this agreement is to provide funds to the recipient for it to provide subawards to local municipalities for eligible water quality improvement projects. The purpose of this award is to provide support for writing, editing, and publishing the Bay Journal (a monthly periodical) as well as the electronic version of the journal. This agreement provides financial assistance to the Maryland Department of the Environment to implement its own project to support site specific monitoring and assessment. The purpose of this grant is to maintain fine particulate matter (PM2.5) monitoring networks by collecting quality-assured data on ambient air quality. The purpose of this grant is to maintain fine particulate matter (PM2.5) monitoring networks in Maryland. The primary objective of this project is to collect and analyze data from the monitoring networks. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This project provides funding to JASTECH Development Services, Inc. to implement its project, which will design, demonstrate, and disseminate best practices for brownfield redevelopment. The purpose of this grant is to maintain fine particulate matter (PM2.5) monitoring networks. The primary objective of this project is to collect and analyze data from the monitoring networks. This assistance agreement provides funding for Coalfield Development Corporation to recruit, train, and place unemployed and underemployed residents of Baltimore. This agreement provides funding to West Virginia to conduct activities that are not assignable to specific sites but will support the recipient's implementation of the Chesapeake Bay Program (CBP). This action increases the total approved assistance amount by \$177,000 along with a corresponding increase in match amount. This agreement provides financial assistance to the Virginia Department of Environmental Quality to implement its own project to support site specific monitoring and assessment. This agreement provides financial assistance to the Virginia Department of Environmental Quality to implement its own project to support site specific monitoring and assessment. This action increases the total approved assistance amount by \$110,000; awards federal funds of \$838,203 for continued support of DOE's implementation of the Chesapeake Bay Program (CBP). This cooperative agreement provides funding for Auberle to recruit, train, and place unemployed and underemployed residents of Allegheny County. This action increases the total federal approved assistance amount by \$1,500,000, awards total federal funding in the amount of \$2,021,732 for implementation of the Chesapeake Bay Program (CBP). This action increases the total approved assistance amount by \$226,087, along with a corresponding increase in recipient cost-share, and awards federal funds of \$1,500,000. This cooperative agreement provides funding for Civic Works to recruit, train, and place unemployed and underemployed residents of Baltimore. The purpose of this award is to provide for an annual survey of the distribution and abundance of submerged aquatic vegetation (SAV) through implementation of the Chesapeake Bay Program (CBP). This agreement may fund the participation of the recipient in activities including, but not limited to, the review of remedial investigation and feasibility studies. PADEP CBIG IV This action increases the total approved assistance amount by \$5,604,326, along with a corresponding increase to recipient cost-share. PADEP CBRAP IV This action increases the total approved assistance amount by \$90,928, along with a corresponding increase to recipient cost-share. The NATTS network tracks trends in air toxics levels to facilitate measuring progress toward emission and risk reduction goals. The action awards federal funds of \$15,000,000 to fully fund the award. The Infrastructure Investment and Jobs Act (commonly referred to as the Infrastructure Act) provides funding for the project. The action awards federal funds of \$10,000,000 to fully fund the award. The Infrastructure Investment and Jobs Act (commonly referred to as the Infrastructure Act) provides funding for the project. This cooperative agreement funds the recipient's program to perform site characterization activities such as preliminary assessments and site specific monitoring and assessment. The purpose of this assistance agreement is to provide funding for Mount Rogers Planning District Commission to conduct eligible assessment and monitoring activities. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act; Public Law 117-58) funded cooperative agreement provides funding for the project. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. This grant is funded from the Infrastructure Investment and Jobs Act (IIJA) and supports PADEP's implementation of projects aimed at achieving the goals of the Chesapeake Bay Program (CBP). The purpose of this American Rescue Plan funded cooperative agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5) in the Chesapeake Bay Program (CBP). This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act, Public Law 117-58) funded cooperative agreement provides funding for the project. The purpose of this award is to provide funding for the City of Hazleton to conduct eligible assessment related activities as authorized by the Chesapeake Bay Program (CBP). This agreement will provide funding under the Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act; Public Law 117-58) to support the implementation of the Chesapeake Bay Program (CBP). The purpose of this American Rescue Plan (ARP) funded cooperative agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5) in the Chesapeake Bay Program (CBP). This action increases the total approved assistance amount and recipient cost share by \$257,574 each for continued support of the collection and analysis of data from the monitoring networks.

This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's program to conduct remedial action at the Obee Road hazardous waste site, which is listed on the National Brownfields Inventory. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The agreement provides assistance to Nebraska Department of Environment and Energy (NDEE) to implement a program of voluntary testing for lead in drinking water. The agreement provides assistance to Nebraska Department of Environment and Energy to implement a program of voluntary testing for lead in drinking water. This agreement is to fund the State of Missouri's Water Quality Management Planning program to improve impaired water and protect unimpaired water. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The agreement provides funding to support the Omaha and Ashton projects to provide subawards to local municipalities in Nebraska for costs associated with the projects. The agreement provides funding to support the (NDEE OSG) project to provide subawards to local municipalities in (Nebraska) for costs associated with the project. This agreement provides funding to the Nebraska Department of Environment and Energy (NDEE) to address the village of Steele City's public water supply. This agreement provides funding to the Missouri Department of Natural Resources to assist the City of Piedmont to bring back into compliance with the Clean Water Act. This agreement provides funding to Kansas Department of Health and Environment (KDHE) to assist a small, underserved drinking water community. The Sac & Fox Tribe of Mississippi in Iowa will plan, develop, and implement a Tribal Environmental Program that: (1) protects human and environmental health; (2) improves the quality of the Tribe's natural resources; and (3) promotes the Tribe's economic development. The project will replace an estimated 15 miles of aged and undersized water lines in the service area of Kansas City, Kansas Board of Public Utilities. This agreement provides funding to City Utilities of Springfield, Missouri to implement its project to install a raw water main as directed in the project. Purpose: This project provides funding to the Iowa Department of Transportation for the implementation of a State Diesel Emission Reduction Program. The agreement provides funding to the Nebraska Department of Environment and Energy (NDEE) to reduce emissions of diesel particulate matter.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to respond to releases of hazardous substances from CERCLA sites.

This agreement provides funding to the City of Camden Point to implement its project to construct a sewer project as directed in the 2023 Capital Construction Program. This project provides funding for the Meskwaki Tribe to conduct research and education activities as outlined in CAA 103. This project includes the construction of a wastewater treatment plant. This agreement is to fund the State of Nebraska's Water Quality Management Planning program to improve impaired water and protect unimpaired water. This agreement provides funding to the City of Willard, Missouri to implement its project for a Water Systems Treatment Upgrade as directed in the 2023 Capital Construction Program. This agreement provides funding to the City of Maquoketa, Iowa to implement its project to complete Wastewater Treatment Plant Upgrades. This agreement provides funding to City of Ottumwa, Iowa to implement its project to construct new sanitary sewer pipe within the Blake's Branch. This agreement provides funding to the City of Dubuque, Iowa to implement its project to implement the Granger Creek Lift Station Improvement. This agreement provides funding under the Inflation Reduction Act (IRA) to Springfield Community Gardens. The recipient will educate and engage the community in the development of a community garden. This agreement provides funding under the Inflation Reduction Act (IRA) to Gamaliel Foundation. The recipient will develop and pilot Climate Action Plan. The agreement provides funding to Kansas Department of Health and Environment. Specifically, the recipient will implement meaningful environmental education programs. This agreement provides funding under the Inflation Reduction Act (IRA) to Iowa Environmental Council. The recipient will build leadership and capacity for environmental organizations. EPA's Solid Waste Infrastructure for Recycling (SWIFR) grants for political subdivisions of states and territories will fund activities that will reduce the amount of waste sent to landfills and incinerators. This agreement provides funding under the Inflation Reduction Act (IRA) to Bridging The Gap (BTG). The recipient's Community Resiliency Fund will provide funding to local organizations to address the needs of the community. This agreement provides funding under the Inflation Reduction Act to PedNet dba Local Motion to implement its own project to address the needs of the community. The agreement provides funding to the Iowa Department of Health and Human Services (IDHHS), Office of Human Rights and Equity. Specifically, the recipient will provide funding to local organizations to address the needs of the community. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). EPA's Solid Waste Infrastructure for Recycling (SWIFR) grants for political subdivisions of states and territories will fund activities that will reduce the amount of waste sent to landfills and incinerators. This agreement provides funding under the Inflation Reduction Act (IRA). The agreement provides funding to Kansas City Missouri (KCMO) to implement its project to construct a sewer project as directed in the 2023 Capital Construction Program. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA) to Prairie Band of Potawatomi Nation (PBPB). EPA's

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Sioux City Community School District. This agreement is to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Ferguson-Florissant School District. This agreement is to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Highland Fleets. This agreement is to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to First Student, Inc. This agreement is to replace existing school buses with clean and zero emission (ZE) school buses.

This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Cornerstones of Care, Inc. to conduct a community health assessment.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Kansas Department of Health and Environment (KDHE) for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Kansas City, Missouri area. The agreement provides funding under the Inflation Reduction Act (IRA) to the Nebraska Department of Environment and Energy ] for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Omaha, Nebraska area. This agreement provides funding under the Inflation Reduction Act (IRA) to the Missouri Department of Natural Resources for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement provides funds to the recipient to conduct (1) site characterization activities at potential or confirmed hazardous waste sites; (2) develop a Health Education and Voluntary Institutional Control Program (HEVICP) to satisfy the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and Superfund Amendments and Reauthorization Act (SARA) requirements; and (3) develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This project provides funding to Kansas Association for Conservation and Environmental Education (KACEE) to implement its project, which includes developing a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Kansas City, Missouri area. The agreement provides funding to the Missouri River Bird Observatory (MRBO). Specifically, the recipient will partner with adults, businesses, and organizations to develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement project provides funding to Upper Iowa University to implement its project, which will design, demonstrate, and disseminate a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding under the Inflation Reduction Act (IRA) to establish and operate three new multipollutant sites in Iowa, as well as to develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement provides funds to the recipient to conduct (1) site characterization activities at potential or confirmed hazardous waste sites; (2) develop a Health Education and Voluntary Institutional Control Program (HEVICP) to satisfy the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and Superfund Amendments and Reauthorization Act (SARA) requirements; and (3) develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding under the Inflation Reduction Act (IRA) to Ponca Tribe of Nebraska for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Omaha, Nebraska area. The agreement provides funding under the Inflation Reduction Act (IRA) to Prairie Band Potawatomi Nation for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement funds the recipient's program to develop a Health Education and Voluntary Institutional Control Program (HEVICP) to satisfy the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and Superfund Amendments and Reauthorization Act (SARA) requirements. The agreement provides funding to Metropolitan Energy Center, Inc.. Specifically, the recipient will reduce emissions of diesel particulate matter and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. - The agreement provides funding to Leonardo Academy Inc. Leonardo Academy Inc. will be partnering with Independence School District, Arkansas Department of Health and Human Services, and the American Lung Association (ALA). The recipient will reduce emissions of diesel particulate matter, nitrogen oxides, and volatile organic compounds (VOCs) and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding to Nebraska Department of Environment and Energy. Specifically, the recipient will replace one class 7 refuse transfer station with a new one and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Omaha, Nebraska area. The agreement provides funding to Bellevue Community School District. Specifically, the recipient will replace and upgrade a 2004 (2003 engine) school bus and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding under the Inflation Reduction Act (IRA) to Winnebago Tribe of Nebraska for the expansion and enhancement of the National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Omaha, Nebraska area. The agreement provides funding to Riverside Community School District. Specifically, the recipient will be replacing a 1997 46 passenger high school bus and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding to Southeast Missouri Regional Planning Commission in its efforts to reduce diesel emissions and exposure to hazardous air pollutants and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of Nebraska to implement resources and activities to reduce diesel emissions and exposure to hazardous air pollutants and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the Omaha, Nebraska area. MoDNR will continue to operate the Blair St. Station in St. Louis as a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This agreement provides funding under the Inflation Reduction Act (IRA) to Santee Sioux Nation. Specifically, the recipient will purchase multi-pollutant monitoring equipment and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. The agreement provides funding to the City of Kansas City, Missouri. Specifically, the recipient will update the National Wetlands Inventory (NWI) and develop a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. This action incrementally funds the agreement, the remaining balance may be funded at a future date. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. This agreement provides funding to the City of Garden City, Kansas to implement its project to construct its Water Reclamation and Reuse a National Air Toxics Trends Site (NATTS) for monitoring and reporting hazardous air pollutants in the St. Louis, Missouri area. This project provides funding for the Winnebago Tribe of Nebraska to conduct research and education activities as outlined in CAA 103. This project provides funding for the Omaha Tribe of Nebraska to develop an Air Program with air monitoring, outreach, and education activities. The objective of this Cooperative Agreement is to develop a Health Education and Voluntary Institutional Control Program (HEVICP) to satisfy the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and Superfund Amendments and Reauthorization Act (SARA) requirements. This project provides funding for the Omaha Tribe of Nebraska to develop an Air Program with air monitoring, outreach, and education activities. The agreement provides assistance to Iowa Department of Education to implement a program of voluntary testing for lead in drinking water at schools and day care facilities.

The agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Nebraska Oil And Gas Conservation Commission. The recipient will establish their Underground Injection Control Class VI injection wells permit program.

This award provides funds to Clark Fork River Technical Assistance Committee (CFRTAC) enabling the recipient to acquire independent technical assistance.

This agreement will provide funding to the City of Missoula to clean up the MRL Triangle brownfield site in Missoula, Montana. The MRL Triangle brownfield site is located in the city of Missoula, Montana.

This agreement provides assistance to the state of Montana's underground storage tank (UST) program. Specifically, this agreement provides funding for the operation of the North Dakota Department of Agriculture's continuing environmental programs while the state of Montana's UST program is in the process of being established.

This agreement provides assistance to the state of South Dakota's underground storage tank (UST) program. Specifically, this agreement provides funding for the operation of the North Dakota Department of Agriculture's continuing environmental programs while the state of South Dakota's UST program is in the process of being established.

This agreement provides funding for the operation of the North Dakota Department of Agriculture's continuing environmental programs while the state of Montana's UST program is in the process of being established.

This agreement provides assistance to the State of Wyoming's LUST program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the state of Utah's underground storage tank (UST) program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the State of Utah's LUST program. Specifically, this agreement provides funding for its LUST corrective action program.

This cooperative agreement continues the recipient's implementation of its pesticide regulatory and enforcement programs, including, but not limited to, the review of remedial investigation and feasibility studies.

This agreement provides assistance to the state of Colorado's underground storage tank (UST) program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the state of North Dakota's underground storage tank (UST) program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the State of South Dakota's Leaking Underground Storage Tank (LUST) program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the State of Montana's LUST program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the State of North Dakota's LUST program. Specifically, this agreement provides funding for its LUST corrective action program.

This agreement provides assistance to the State of Colorado's LUST program. Specifically, this agreement provides funding for its LUST corrective action program.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to conduct remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This agreement will provide assistance to the Colorado Department of Public Health and Environment (CDPHE) in its efforts to reduce diesel emissions and improve air quality.

This agreement will provide assistance to the North Dakota Department of Environmental Quality in its efforts to reduce diesel emissions and improve air quality.

The agreement provides funding to The Utah Department of Environmental Quality (UDEQ), Division of Air Quality (DAQ). Specifically, the recipient will use this funding to conduct a range of activities associated with the planning, assessment, and clean up of brownfields.

With this funding the Utah Department of Environmental Quality is proposing to target PM2.5 (particulate matter), nitrogen oxides, sulfur dioxide, and its precursor pollutants.

This support agency cooperative agreement awards funds to the Montana Department of Environmental Quality (MDEQ) to fund remedial investigation and feasibility studies.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to conduct remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This agreement may fund the participation of the recipient in activities including, but not limited to the review of remedial investigation and feasibility studies.

With this funding the Utah Department of Environmental Quality is proposing to target PM2.5 (particulate matter) and its precursor pollutants, including nitrogen oxides, sulfur dioxide, and its precursor pollutants.

This cooperative agreement to Utah Department of Environmental Quality will utilize Clean Water Act (CWA) 106 and Nonpoint Source (NPS) program funds.

This Cooperative Agreement awards the State of Montana Department of Environmental Quality the amount of \$1,657,886.00 and incremental funding for the operation of the North Dakota Department of Agriculture's continuing environmental programs while the state of Montana's UST program is in the process of being established.

This agreement may fund the participation of the recipient in activities including but not limited to the work at the Lowry Landfill, site specific remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This agreement provide funds to the recipient to conduct (1) site characterization activities at potential or confirmed hazardous waste sites; (2) remedial investigation and feasibility studies; and (3) remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This remedial response cooperative agreement awards funds to the Utah Department of Environmental Quality (UDEQ) to lead remedial investigation and feasibility studies.

This agreement funds the recipient's program to conduct the remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This cooperative agreement that provides funds to the CDPHE to conduct (1) site characterization activities at potential or confirmed hazardous waste sites; (2) remedial investigation and feasibility studies; and (3) remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This assistance agreement for the State of Colorado Department of Public Health and the Environment (CDPHE) provides both Management and Technical Assistance.

This agreement funds the recipient's program to conduct Operation, Maintenance, groundwater monitoring, and five year review activities at the Bonita Peak Mine hazardous waste site.

This agreement contains activities that complement existing environmental program grants. Specifically the recipient will use this multipurpose grant to conduct a range of activities associated with the planning, assessment, and clean up of brownfields.

The tasks associated with the Operable Unit 5 Remedial Investigation and Feasibility Studies (RI/FS) will include Colorado Department of Public Health and Environment (CDPHE) and the Environment (CDPHE) provides both Management and Technical Assistance.

This agreement funds Montana Department of Environmental Quality \$120,000 to provide technical assistance (TA) of activities at the Columbian River brownfield site.

This agreement will provide funding for Canon City to conduct a range of activities associated with the planning, assessment, and clean up of brownfields.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal governments to conduct remedial action activities per the IROD at the Bonita Peak Mine hazardous waste site.

This agreement provides funding to . . . North Dakota Department of Environmental Quality under the Safe Drinking Act: Section 1452 and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA.

This agreement provides funding to North Dakota DEQ. Safe Drinking Water Act (SDWA): Section 1452 and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

This agreement provides funding to North Dakota DEQ. Section 1452 of the Safe Drinking Water Act (SDWA) and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Ute Indian Tribe. The purpose of this grant is to monitor particulate matter emissions from the Ute Indian Tribe's coal-fired power plant.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, petroleum product, or other hazardous material.

Reconstructing 40 years of selenium exposure from fish otoliths: Archival tissue applications for contaminant biomonitoring in Lake Koocanus

The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Drinking Water State Revolving Fund.

This agreement provides funding to Colorado Water Resources and Power Development Authority under the Safe Drinking Act: Section 1452 and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund.

The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund.

The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA). The purpose of the project is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund.

Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA.

This agreement provides funding to UT DEQ. Section 1452 of the Safe Drinking Water Act (SDWA) and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.

This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's Drinking Water State Revolving Fund.
